## NORMAL AND UV- LIGHT

Was mit der neuen NEXTORCH GL20 UV sichtbar wird, will man gar nicht sehen.  
Erst recht nicht im Hotelzimmer ...

**Die neue NEXTORCH GL20UV kann neben normalen Licht auf UV-Licht mit echten 365nm umgeschaltet werden!**

Mit diesem speziellen UV-Licht kann man Geldscheine, Fahrzeugscheine und andere Dokumente wie Ausweise sofort auf Echtheit überprüfen – sogar bei Tageslicht!

Mit dem Schwarzlicht dieser praktischen, kleinen Lampe kann man sogar überprüfen, ob z.B. Hotelzimmer hygienisch einwandfrei sind.

Die NEXTORCH GL20UV ist also der optimale Reisebegleiter und ein tolles Geschenk, für alle, die viel unterwegs sind! Im Handwerk hilft diese geniale Leuchte sogar dabei UV-Reaktiven Klebstoffe zu härten und macht einen super Job bei der Riss-Detektion.

## PROTECTION AGAINST INSECTS AND MORE

### PORTABLE MOSQUITO REPELLER

### FOR CATS AND DOGS

The **DOG BARKING REPELLER PRO** is designed to prevent your dog from barking for no reason when left alone.

This prevents problems with neighbors and helps you train your dog in a harmless way.

### RODENT | COCKROACH REPELLERS

**PORTABLE MOUSE | COCKROACH REPELLER** Minimalist design. Protects your home by emitting ultrasound waves that are unbearable to mice and cockroaches, driving them away from the area protected by the repeller. Battery operated. Can be taken with you anywhere, even to places where no electrical outlets are available.

**MOUSE | COCKROACH REPELLER HOME** This is the plug-in version of the previous model, made even smaller to get rid of these little pests.

**RODENT | COCKROACH | BAT REPELLER PRO** is the industrial version. It's more powerful, with double **INSonuerit 3.0** technology to repel rats, mice, cockroaches and bats.

Reaches more corners and covers larger areas than the smaller versions.

### PEST COMPLETE REPELLER HOME

The **PEST COMPLETE REPELLER HOME** is the most complete model we have ever manufactured.

It is no longer necessary to have more than one of our products to be free of annoying animals and insects, such as ants, flies, mosquitoes, mice and cockroaches. This model offers all the technologies necessary to fight them all.

WRAPS Shield Pouch blocks radio transmitted signals, Wifi, GPS, GSM and NFC.

#### CONTACTLESS CARD THEFT

## ACTIVE NOISE CANCELLING EARPLUGS

### Technologie

Die Geräusche in Flugkabinen liegen bei etwa 100Hz. Bei dieser Frequenz versagen alle passiven Ohrstöpsel. Sie wirken zwar breitbandig, decken aber niedrige Frequenzen nicht ab. QuietOn vereint beide Eigenschaften. Sowohl die passive breitbandige Lärmuntersdrückung als auch die aktive Lärmunterdrückung im niedrigen Frequenzbereich.

### Displayschutz ohne Folie oder Glasschutz.

Die fortschrittliche Technologie von Diamond Defense erzeugt eine starke, hydrophobe, nano-dünne Beschichtung auf dem Screen, die nicht gesehen oder gefühlt werden kann. Partikel, die mit der behandelten Oberfläche in Kontakt kommen, prallen ab und rutschen von der unsichtbaren Beschichtung ab. Sie bieten eine hervorragende Widerstandsfähigkeit gegen Kratzer und Späne und minimieren den Schaden, der durch die alltägliche Abnutzung verursacht wird.

Diamond Defense ist wasserbasiert und **enthält KEIN Titanium Dioxid**. Andere Flüssigscreen Schutzmittel enthalten teilweise sogar Stoffe, die auf der Liste krebserregender Stoffe (z.B. Titanium Dioxid) stehen.

### Create a portrait with pegs

With Pixel Photo, anybody, young or old, can create extraordinary portraits, using the famous Quercetti pegs. Go to our website [www.quercettiart.it](http://www.quercettiart.it), upload the photo you like and follow the instructions, print the pattern sheets, and place them on the pegboards. Then all you have to do is insert the pegs to create your picture!

The pegs come in only 6 colours, but when observed from the right distance, the colours mix as if by magic and become thousands of new colours and shades. The picture you made will look just like a photo. Basically, this is the first product in the world of toys to use the 'optical mix' principle. This is the same technique used by painters of the 'pointillism' style at the end of the 19th century. They used a series of brushstrokes close together to create wonderful paintings. Here, paints and brushes are replaced with pegs, but the end result is practically the same. It can be considered as an extraordinary and classy decoration for the walls of your home. And you can also choose to create your picture in colour or black and white. You will see how a black and white picture is actually made up of coloured pegs. It is sure to surprise and impress your friends.
